

Nema Bassiri, Ph.D., PGY2

Nema Bassiri grew up in San Antonio, Texas and received his B.S. in mathematics and engineering at Texas A&M. He pursued his doctoral degree at UT Health and studied dosimetric techniques for measuring dose enhancement in gold nanoparticle solutions. Nema is a first-year resident at UC Davis medical physics residency program, where he will gain hands-on, clinical training in medical physics. In his spare time, he likes to play chess and electric guitar as well as cook.
